Roadmap – Australia's Disability Strategy 2021–2031

Australia's Disability Strategy 2021-2031

Creating an inclusive community together

Working together

Everyone has a role to play. We will work across governments and communities towards our shared vision.

We will have an actionorientated approach to achieving clear goals. We will guide action and reform across Australia.

Connecting

We will listen to people with disability, their families and supporters, and respect what they have to say.

Accountability

We are responsible for our actions. We will regularly report on progress, and recognise where more work is needed.

Vision

An inclusive Australian society that ensures people with disability can fulfil their potential, as equal members of the community.

Strategy milestones
